

# Pokémon Epoch Emerald Encounter Guide

Region map • Wild encounter methods • Levels and rates

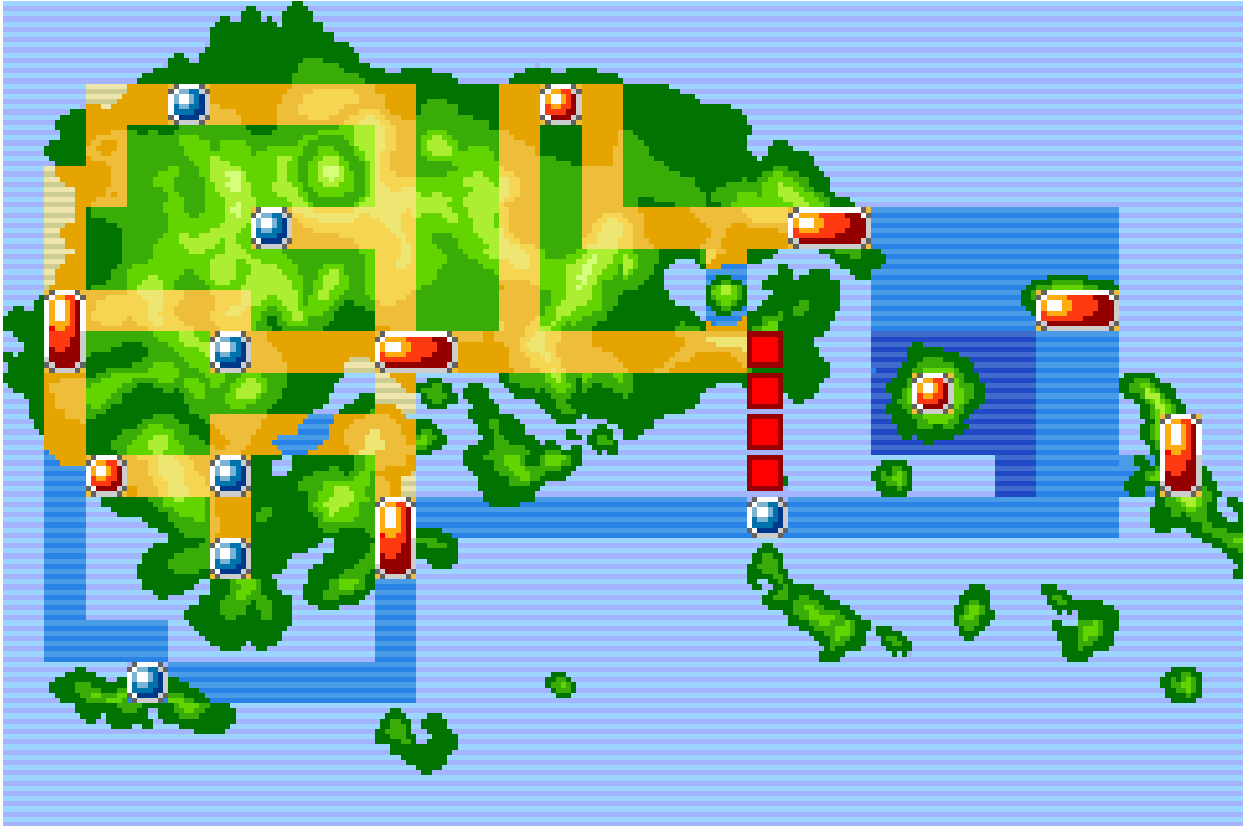

---

129 encounter records

Includes all nine Altering Cave variants

Built from the current repository state

## Region Overview

In-game region map. **Red squares mark the new Route 135 connection from Mt. Pyre to Pacifidlog Town.**  
Encounter sections are grouped for fast lookup rather than strict story order.

### How Rates Are Shown

Area rate is the source encounter-rate value for the method. Species rates are conditional probabilities after an encounter begins. Repeated slots are combined, and their minimum and maximum levels are shown as one range.
